

Main GUI

The main GUI window titled "Melbourne Weather 2" features a location dropdown menu set to "Laverton". Below the dropdown are three radio buttons: "All" (selected), "Rainfall", and "Temperature". A "Check" button is positioned at the bottom center.

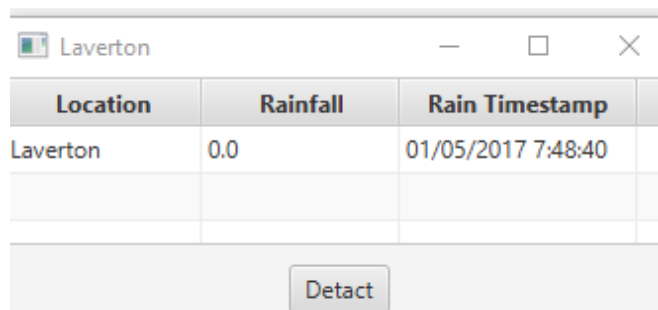

Gui when all is selected

The GUI window titled "Laverton" displays a table with five columns: Location, Rainfall, Rain Timestamp, Temperature, and Temp timestamp. The first row contains the data for Laverton. A "Detect" button is located at the bottom center.

Location	Rainfall	Rain Timestamp	Temperature	Temp timestamp
Laverton	0.0	01/05/2017 7:48:40	14.3	01/05/2017 7:48:40

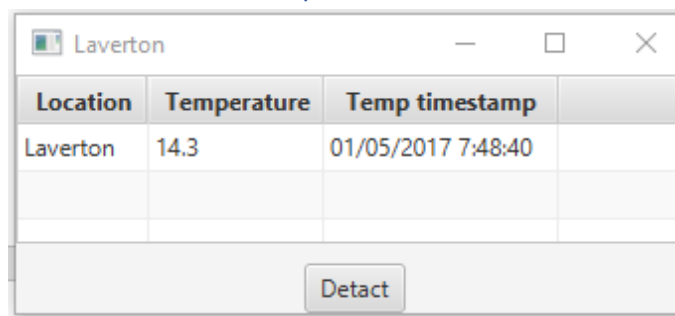

GUI when rainfall is selected

The GUI window titled "Laverton" displays a table with three columns: Location, Rainfall, and Rain Timestamp. The first row contains the data for Laverton. A "Detect" button is located at the bottom center.

Location	Rainfall	Rain Timestamp
Laverton	0.0	01/05/2017 7:48:40

GUI when temperature is selected

The GUI window titled "Laverton" displays a table with three columns: Location, Temperature, and Temp timestamp. The first row contains the data for Laverton. A "Detect" button is located at the bottom center.

Location	Temperature	Temp timestamp
Laverton	14.3	01/05/2017 7:48:40
